

Dear Hiring Manager,

I am thrilled to apply for the Junior Software Developer position at Bidhaa Sasa. As a passionate software developer with a strong foundation in Python, Java, and cloud-based solutions, I am eager to leverage my skills to support your mission of empowering East Africa's rural families through climate action.

Holding a diploma in Computer Science, I have gained hands-on experience in building scalable applications with AWS and integrating REST APIs. My familiarity with Salesforce development and customisation allows me to optimize business processes through tailored solutions.

Beyond technical expertise, I thrive in collaborative, agile environments. Serving as a Team Lead on a software development project, I honed my ability to coordinate cross-functional teams, manage responsibilities effectively, and deliver results under tight deadlines. My enthusiasm for continuous learning ensures that I stay up to date with emerging technologies and best practices to make meaningful contributions.

What excites me most about Bidhaa Sasa is your commitment to integrating climate finance with innovative sales models to provide affordable, climate-smart technologies to rural communities. The impact of your work aligns with my belief in using technology to drive sustainable development, and I am eager to contribute to these efforts through innovative software solutions.

I would welcome the opportunity to discuss how my background and skills align with your team's needs. Thank you for your time and consideration I look forward to the possibility of joining Bidhaa Sasa and making a meaningful impact.

Best regards,

Chesang Felister
